

HEALTHY OUTCOMES
FROM POSITIVE EXPERIENCES

Dear HOPE family,

As temperatures drop, we find ourselves in the midst of an unprecedented holiday season. As we reflect on 2020 and find new, safe ways to connect with loved ones in the coming weeks, we can't help but think of you, our growing HOPE family.

In the time of Covid-19, filled with disruptions and challenges, your guidance, support, and input were invaluable to HOPE's continued growth. We've reached more families and providers than we could have ever imagined, and we have you to thank for these achievements!

35 workshops
22 states
7000 participants
